

Dynamics and Structure of Networks Meeting

DYNASNET ERC-2018-SyG 810115

March 19, 2021 Friday

Zoom Call

14:00 -	Opening
5 min	Name: Patrice Ossona de Mendez Topic: Small, sparse, order
5 min	Name: Aneta Pokorna Topic: On the connectivity and the diameter of betweenness-uniform graphs
5 min	Name: László Lovász Topic: Homomorphisms into orthogonality graphs
5 min	Name: Domonkos Czipra Topic: Simulation results about the spread of differently seeded epidemics
5 min	Name: Gergely Ódor Topic: Theoretical results about a switchover phenomenon for differently seeded epidemics
5 min	Name: Miklós Ruzinkó Topic: Activation process on random graphs
5 min	Name: Balázs Szegedy Topic: Simple random physical networks
20 min	Topic: Open discussion about how to proceed

After each talk, there is an opportunity for a 5 min discussion.
