

Dynamics and Structure of Networks Meeting

DYNASNET ERC-2018-SyG 810115

October 30, 2020 Friday

Zoom Call

14:00 -	Introduction
2 min	Name: László Lovász Topic: Opening
10 min	Name: Márton Karsai - Gergely Ódor Topic: Mathematics of epidemics
10 min	Name: Márton Pósfai - Balázs Szegedy Topic: Physical networks
5 min	Name: Gábor Elek Topic: Hyperfiniteness
5 min	Name: Federico Battiston Topic: The dynamics of higher-order interactions
5 min	Name: Miklós Abért Topic: Limits of temporal information
5 min	Name: Balázs Ráth Topic: Self-organized criticality of dynamic random graph models
5 min	Name: László Lovász Topic: Markov spaces as graph limits
5 min	Name: Miklós Ruzinkó Topic: A modified bootstrap percolation on a random graph coupled with a lattice
